ENSC 251 Lab 1 Work Distribution

We worked on most of the project together, our work distribution was about 50/50 as most of the time we were just helping each other out on each part..
Specifically on what we did,

Ethan Phan 301412030: Most of date.cpp./hpp except for setfunctions and Dateinitializer.
Barath Venkiteswaran 301436274: Time.cpp/hpp, and the SetFunctions and Dateinitalizer functions
